Name\_\_\_\_\_Key\_\_\_\_\_

Give the declaration for two variables called `count` and `distance`. `count` is of type **`int`** and is initialized to zero. `distance` is of type **`double`** and is initialized to 1.5.

```
int count = 0;  
double distance = 1.5;
```

OR

```
int count;  
count = 0;  
double distance;  
distance = 1.5;
```
